

# COPYRIGHT TERMS

*Positive Science - Economics*

**Transfer of rights.** Upon acceptance, authors enter into an assignment of exclusive economic rights to the publisher. This grants the publisher the right to publish, reproduce, distribute, translate, and adapt the work as needed for editorial production and dissemination in any form and medium.

**Public license.** The publisher then grants the public rights to use the article under CC BY 4.0 (see above). Moral rights (authorship, attribution, integrity) remain with the authors in full.

**Author reuse rights.** Notwithstanding the assignment, authors retain a non-exclusive right to non-commercial and commercial reuse of the article (teaching, theses, subsequent works and compilations) with credit to the original publication, the DOI, and the CC BY 4.0 license. Commercial reuse requires publisher permission.

**Layout and branding.** Journal layout elements, logos, proprietary fonts, and iconography are not included in CC BY. They are protected by the publisher's rights and require separate permission for use outside the article.

## **Author warranties.**

By submitting, authors warrant that:

- the work is original, not under consideration elsewhere, and does not infringe third-party rights;
- all necessary permissions for third-party content have been obtained;
- ethical and confidentiality requirements have been met;
- all funding sources and conflicts of interest are fully disclosed;
- all co-authors have approved the submission and publication.

## **Corrections, expressions of concern, and retractions.**

The journal follows community standards for issuing corrections, expressions of concern, and retractions. In case of retraction, the Version of Record is clearly marked and remains accessible to preserve the scholarly record.
